September 1st, 2020

Dear Caston Families,

I want to keep everyone current on the COVID return to school procedures as up dates are being added. Please remember that procedures might change many times this school year so please look on the school's website for the current guidelines frequently. If you have any questions, please contact the school nurse by phone, or email.

Please continue to screen your children for illness prior to sending them to school each day. If you are keeping a sick child home, please keep other siblings home also.

If your child is sent home with any symptom(s) of COVID, all siblings living in the house also need to isolate until the sick individual can either:

1. Follow up with a doctor to get an alternative diagnosis (Non-Covid illness must be on note)
2. Be tested for COVID and be negative (testing takes 3-5 days for results)
3. Stay home and isolate for 10 days from start of symptoms.

If an individual has been tested and is positive for COVID, all close contacts need to quarantine for 14 days after the last exposure to the positive individual. Please note, if you live in the same house as a positive person, you will have to complete a 10 day isolation with the ill person and then an additional 14 day quarantine.

Diana Smith RN
Caston School Nurse
