ACCREDITATION

Caston Junior-Senior High School is accredited by the Indiana Department of Education

VISITORS

Caston School Corporation will now be using The RAPTORS Visitor Management System. All visitors must report immediately to the main office and request a visitor's permit. However, no person shall remain in the school building or on the grounds after being asked to leave by any member of the administration, faculty, or maintenance staff. Students are not to have other students come visit with them at school during school hours. Student visitors will not be permitted.

Upon entering a building, visitors will be asked to present an ID such as a Driver's License, which can either be scanned or manually entered into the system. If a parent or guardian for any reason does not have a US government-issued ID, the school staff member can use any form of identification and manually enter the person's name into the system. The system checks the visitor's name and date of birth for comparison with a national database of registered sex offenders. The registered sex offender data basis the only official database checked by the system. Once entry is approved, the system will issue a badge that identifies the visitor, the date, and the purpose of his/her visit. A visitor's badge will not be necessary for those who visit our schools simply to drop off an item in the office or pick up paperwork. Caston School staff reserves the right to deny anyone entry to the building.

Only those people with legitimate business to transact are to be at school. Former students and friends of current students should not visit during the school day, unless they are here for school business. Guests and visitors must register in the office. Parents are always welcome. Visitors are expected to leave promptly when their business is concluded.

VIDEO SURVEILLANCE AND ELECTRONIC MONITORING

Parents and students are notified that the school uses video surveillance/electronic monitoring systems on school grounds, on school buses and in the schools in order to protect school property, promote security and protect the health, welfare and safety of students, staff and visitors. Information obtained through video surveillance/ electronic monitoring may be used to identify intruders and persons breaking the law, Board policy, or the Student Code of Conduct (i.e., it may be used as evidence in disciplinary actions and criminal proceedings)

ATTENDANCE CHECKING IN AND CHECKING OUT

CHECKING IN - Students checking in to school after an absence must report to the HS Secretary between 8:20 – 8:35 in the high school office. After 8:35 A.M., students should report to the office to receive an admit slip from the high school secretary. This also applies when returning from a morning absence or simply a one-period or two-period absence. The student should present a note documenting the reason for the absence, signed by the parent or a physician. Students returning during the day must sign in at the front office.

CHECKING OUT - Students checking out of class for any reason must obtain permission from their teachers and sign out of each class. Students checking out of the building for any reason are required to obtain approval from the administration before leaving the building. If a student has an approved reason to leave school and he/she notifies the HS office secretary, his/her name will be put on the attendance list for the teachers. The student may leave the class at that time and come to the office to check out. All students must sign out in the HS office and leave from door #2. If a student leaves without permission from the principal or designee, the school nurse or permission from a parent/guardian for any reason, his/her absence will be considered truancy. (Skipping School)

ATTENDANCE POLICY

A very high positive correlation exists between learning and attendance. The school climate, teachers, support staff, facilities, other students, and you dynamically interact. In effect, the absence of any of these variables detrimentally influences learning. We want you in class and expect you to accept responsibility for success of all school programs. It is reasonable to assume that more than eight (8) days of absence per semester is excessive except in cases of extended illness or extremely unusual circumstances. Unusual and/or deliberate absences will be reviewed individually and dealt with according to the circumstances of each case. If a student misses more than eight (8) days per semester, that student may be

subjected to basic disciplinary procedures. *The student may lose credit in any class/classes that he/she misses more than eight times with any kind of absences. Absences accumulated after the eight day limit shall be accompanied with a valid dr's / medical excuse.*

In order to qualify for an excused absence, a parent or guardian must call the junior-senior high school office the day of the absence. If the parent has not called on the day of the absence, then the parent must call the office voicemail with the correction prior to the next school day. Parents are strongly encouraged to notify the school on the day of an absence by 9:00 at 857-3505 ext. 310. *The attendance policy at Caston Jr/Sr High School acknowledges as defined by state statute that compulsory attendance exceptions may be determined by school administration/attendance committee due to extenuating circumstances toward the 8 day per semester limit.*

Excused Absences

Excused absences are defined as absences that the school corporation regards as legitimate reasons for being out of school, as included in the school policy. counts as one day against The 8 day per semester limit. These could include:

- Illness verified by note from parent/guardian
- Illness verified by note from Physician
- Family funeral
- Maternity
- Military Connected Families (e.g. absences related to deployment and return)

An excused absence is one that permits a student to make up missed work and receive credit. *The student will be given one day for each day missed to make up work for full credit;* if the absence makes it necessary for the student to receive an “incomplete” for a grading period, the student has one (1) week within which to make up those grades. If those grades are not made up, or if the student has not contacted the guidance department, an “F” will be assigned.

Unexcused Absences

- An unexcused absence is any absence not covered under the definition of excused or exempt.

An unexcused absence results from no call from home and/or no note upon return to school. It counts as one day against the 8-day per semester limit. Class work should be made up with no credit. The following progression of penalties will be per semester:

- The first unexcused absence will result in a warning
- The second unexcused absence will result in disciplinary action by administration with a signed attendance contract and a parent conference.
- Additional unexcused absences will result in further disciplinary action by administration.

Exempt Absences

Under certain circumstances, the law requires the school to authorize the absence and excuse of a student: serving as a page or honoree of the General Assembly (IC 20-33-2-14); serving on the precinct election board or as a helper to a political candidate or party on the day of a municipal, primary or general election (IC 20-33-2- 15); when subpoenaed to testify in court (IC 20-33-2-16); serving with the National Guard for no more than 10 days (IC 20-33-2-17); or serving with the Civil Air Patrol for up to 5 days (IC 20-33-2-17.2), the student or a member of the student's household exhibits or participates in the Indiana State Fair for educational purposes (IC 20-33-2-17.7). In each of these circumstances, the student is excused from school and is not to be recorded as absent, and is not to be penalized in any way by the school. The governing body of a school corporation may authorize the absence and excuse of a student who attends any educationally related non-classroom activity if the activity is consistent with and promotes the educational philosophy and goals of the school corporation; facilitates the attainment of specific educational objectives; is part of the goals and objectives of an approved course or curriculum; represents a unique educational opportunity; cannot reasonably occur without interrupting the school day; and is approved in writing by the school principal (IC 20-33-2-17.5). Certain school trips fall under this exception, as well as individual student absences. Students have been excused from attendance to participate in various academic bowls, band or orchestra trips, for attendance at local, state, or federal government proceedings, or to hear various public speakers or performers. To review this statute in entirety, refer to the Compulsory School Attendance Law.

Truancy - Truancy: Students are not to go outside of the school building at anytime during the school day except under the supervision of a teacher or permission from the office or a student is not in class and is somewhere he/she does not have permission to be. Students are also restricted from entering and/or using the elementary side of the building unless previously assigned. Additionally, students are to be in their assigned class at the appropriate time. It is determined that parents and/or guardians had no knowledge of the absence. This counts as one day against the 8-day per semester limit. Class work is to be made up with no credit. Additional disciplinary action is possible if necessary.

- The first offense will result in In School Suspension for the remainder of the day on the offense.
- The second offense will be In School Suspension for the remainder of the day and the following day.
- The third offense will result in further disciplinary action by administration - which could include ISS/OSS or expulsion.

ACCUMULATION OF ABSENCES

Students will be allowed to earn credits in courses within an allowable limit of eight (8) absences in a given semester. Any student with a personal illness or condition which requires more than 8 absences in one semester must submit a physician's statement of incapacity (I.C. 20-33-2-18) explaining the illness to the administration/school nurse at the beginning of the school year or immediately after the illness has been diagnosed in order to be waived from the eight (8) day limit. Notifications to student and parent will be sent after the 3rd, 5th and 7th absence. On the 8th absence, parents will be advised of a mandatory meeting concerning their student. On the 8th absence, parents will be advised of the possible loss of semester credit and notification will be sent to the Fulton or Cass County Prosecuting Attorney's Office. The loss of credit is at the administrations discretion.

DENIAL OF CREDIT

Students who exceed the maximum number of 8 days MAY not receive credit for the course that semester/term. However, the student will be encouraged to remain in the class for the remainder of the term and receive a grade of "L" (Lost Credit)! At the end of the term/semester, if the student is failing at the time, then the grade will remain an "F". If the student has a passing grade at the end of the semester/term, the student will be able to earn that grade back through a contract between student, parent and administration. Loss of credit is serious and may ultimately have an effect on graduation.

HABITUAL TRUANCY

Recently IC 20-20-8-8 was amended to define habitual truancy to include students absent ten (10) days or more from school within a school year without being excused or without being absent under a parental request filed with the school. Chronic absenteeism includes students absent from school for ten percent (10 percent) or more of a school year for any reason.

Indiana Code provides that any person, while of the age of 13 to 18, who is determined to be a habitual truant as defined by the school board will either not be issued a operator's license or learner's permit or an operator's license current held will become invalidated until the age of 18. The term "**habitual truant**" is hereby defined as a student who has **ten (10) days of truancy** during the course of the school year. The days do not have to be consecutive to be considered truant. **Expulsion** can take place after three truant days. In addition, habitually truant students will have their work permits revoked.

PRE-ARRANGED ABSENCES (VACATION)

A student may know in advance that he/she will need to miss school for 2 or more consecutive days. These absences must be prearranged by parental request. Unless the prearranged absence qualifies as a verified absence, it will be considered a limited excused absence. The necessary form for prearranged absences is available in the office. In requesting a pre-arranged absence, students and parents must assume full responsibility for work missed and accountability for total days missed. Vacations absences should be prearranged well in advance. All vacation requests should be made to the administration and receive approval at least one week prior to the requested leave. Requests for excused absences can be denied for students with chronic attendance problems. A meeting with parents will be held to discuss possible options for these students.

A prearranged absence is not allowed during weeks of final exams. No more than a total of five (5) prearranged days may be used during one school year.

College visitation days for juniors and seniors will be classified as an educationally related absences and must be prearranged. All students must prearrange a college visitation day at least three days in advance with the Guidance Office. **Upon return from the college visitation day, the student must present a note on official letterhead and signature stating the date of the student's visit to the campus.** HS students are allowed three college visitation days throughout their HS career. Additional college visitation days must be and can be approved through administration.

EARLY MORNING & OTHER TARDIES

A student arriving after the tardy bell rings is considered tardy. Students arriving to school after 8:50 will be counted absent to their first period class. Tardies will begin accumulating on the first day of each nine weeks and continue through the last day of each nine weeks. Tardies will be referred to the office upon the third and beyond. The penalties for tardies to school and/or classroom are listed below. Personal contact with parents is necessary for tardies 3-8 with documentation at each level. The following applies to accumulated tardies in all classes. - PARENT CONTACT after 3.

Tardy 1-2	Warning Contact

Tardy 6-7	After School Detention (1 Hour),
Tardy 8-9	1 day ISS, Possible Parent Conference, Possible Loss of Credit, Loss of Extra Curricular Eligibility, Loss of Driving Privileges, Locker privileges revoked, Tardy/Attendance contract.
Tardy 10	Additional consequences as deemed necessary per contract (ISS/OSS)

ATTENDANCE/AFTER-SCHOOL EVENTS

Any student who is unable to attend school for educational purposes is also unable to attend school for social functions. This includes athletic practice, games, contests, organizational functions, dances, picking up other students or siblings, and in general, any reason at all. **A student must be at school by 11:42AM (The beginning of 5th Period) to attend after-school events.** Furthermore, students failing to attend school but attending after school activities will receive an unexcused absence.

BUS RULES /REGULATIONS

Bus transportation is provided as a service. It is not a right. School bus drivers are to have control of all school children conveyed between the homes of the children and the school, and return. The driver shall keep order, maintain discipline among the children while in the bus or along the route, shall treat all the children in a civil manner, see that no child is imposed upon or mistreated while in his/her charge, and shall use every care for the safety of the children under his/her charge.

MAKE-UP WORK

Work missed when absent for legitimate reasons may be made up. It is the responsibility of the student to make the necessary contacts with teachers concerning make-up work. If a student is suspended from school, schoolwork may be made-up for credit. If the absence is unexcused, the work may not receive credit.

STUDENT BEHAVIOR INTRODUCTION

The Caston School Corporation has legal responsibility for the school. The Board, in turn, has set policies and has appointed administrative officers to carry them out. Authority for such Board actions is included in the School Powers Act and Student Due Process Code of the Indiana General Assembly and in the Policy Manual of the Caston School Corporation.

Copies of Indiana and federal law codes as well as school policies are available in the Principal's Office of Caston Jr.-Sr. High School. Contact the office with a request to review these materials.

The Board of Trustees delegates to the Superintendent, the Principals, and the teachers the function of imposing necessary discipline to maintain a proper educational atmosphere. The areas specifically covered within this handbook are not inclusive. From time to time, the principal may need to discipline a student for behavior not covered in this handbook. If this occurs, the principal will administer a punishment that is consistent with similar disciplinary situations.

1. AIDING & ABETTING

Students aiding, abetting and promoting other students in breaking any school rule or regulation will be charged with the same violation as the student breaking the rule or regulation and, therefore, suffer the same disciplinary consequences.

2. ALCOHOL, DRUGS, & CONTROLLED SUBSTANCES

Possessing, using, providing, or being under the influence of any substance that is or contains alcohol, drugs, and controlled substances, including those that are available over-the-counter, on school grounds or at any school-sponsored activity, including the school bus, is prohibited. Possessing or providing anything used or designed to be used primarily for the storage or use of said substances is prohibited. Representing any substance to be alcohol, drugs, or a controlled substance is also prohibited.

Any student who violates the terms of this policy may be subject to such discipline as of the Board of Trustees consistent with the applicable Indiana law with respect to student discipline. Such discipline can include suspension or expulsion from school. In addition, any violation will be referred to the appropriate public officials for possible criminal prosecution.

Student offenses are cumulative for the school year and all classes, not per individual class.

5. CLASS DISRUPTION

Any actions, noises, or comments, which impede the classroom-learning environment, will be considered a class disruption. This includes but is not limited to consistently not doing work or taking materials to class, frequent talking, and bringing nonacademic materials into the classroom.

Regardless of the type of program, courtesy demands that the student body be respectful and appreciative. Students who disrupt convocation will be disciplined based upon the nature of the interruption or disturbance.

If teacher/staff members are in doubt or question if a student is in noncompliance of the dress code, they will refer the case to the administration.**

Students who wear unacceptable clothing will change clothes and will turn in the offensive clothing to the office. Clothing items may be picked up at the end of the day. If a student is sent home to change clothes, the absence will count as an unexcused absence.

Vehicle registration shall be done within five (5) school days at the beginning of the school year. If a student receives a license or begins to drive during the school year, he/she must register the vehicle within five (5) school days. This is the responsibility of the student. Failure to register will result in loss of driving privileges. Once a student vehicle is registered, he or she will be issued a parking permit. All students are expected to display their parking permit in their vehicles at all times.

The Corporation prohibits criminal gang activity and similar destructive or illegal group behavior on Corporation property, on buses owned by the Corporation or used to transport Corporation students, and at school-sponsored functions.

The Corporation prohibits reprisal or retaliation against individuals who report criminal gang activity and similar destructive or illegal group behavior or who are victims, witnesses, bystanders, or others with reliable information about an act of criminal gang activity and similar destructive or illegal group behavior.

All Corporation employees shall report any incidence of suspected criminal gang activity to the building principal. As well, students and parents, who choose to do so, may report an incident of criminal gang activity to the principal. The principal and the school safety specialist may take appropriate action to maintain a safe and secure school environment, including providing appropriate intervention services.

A corporation employee who in good faith reports an incident of suspected criminal gang activity in compliance with the procedures of this policy and any Corporation employee, parent, or student who in good faith participates in any judicial or other proceeding resulting from the report or relating to the subject matter of the report is immune from any civil or criminal liability for damages arising from his/her actions.

Each school principal or designee shall conduct a thorough and complete investigation of each report of suspected criminal gang activity and each report of reprisal or retaliation. The principal or designee shall initiate the investigation promptly but no later than two (2) instructional days of the report of the alleged incident. The principal may appoint additional staff and the principal or designee may request the assistance of law enforcement to assist in the investigation for the safety of the administration, Corporation staff, or students. The investigation shall be completed and written findings prepared by the principal or designee as soon as possible but no later than five (5) instructional days from the date of the report of the alleged incident.

The principal or designee shall submit the report to the Superintendent within ten (10) instructional days of completing the investigation. The Superintendent shall report the results of each investigation to the Board on an as-needed basis during its scheduled Board meetings.

The Superintendent is authorized to issue guidelines to define the range of ways in which Corporation staff and the principal or designee shall respond once an incident of criminal gang activity is confirmed, according to the parameters described in the Corporation's code of student conduct. The Board recognizes that some acts of criminal gang activity may be isolated incidents requiring that the school officials respond appropriately to the individuals committing the acts while other acts may be so serious or involve individuals outside the school that they require a response by local law enforcement officials.

Appropriate consequences and remedial action will be imposed when students are found to have engaged in criminal gang activity, criminal gang intimidation, or criminal gang recruitment on Corporation property, while riding on Corporation buses or buses used to transport Corporation students, and at school-sponsored events or when they are found to have engaged in retaliatory conduct towards a Corporation employee or student who reported an incident of criminal gang activity, according to the severity of the offense and considering both the developmental age of the student offender and the student's history of inappropriate behavior, per the code of student conduct. Consequences and appropriate remedial action for a student who engages in criminal gang activity may range from positive behavioral interventions up to and including suspension or expulsion. Incidents that result in the expulsion of a student(s) or alternative school placement of a student(s) will be referred to the local law enforcement officials for further investigation. The principal shall proceed in accordance with the code of student conduct, as appropriate, based on the investigation findings and the Superintendent's guidelines. As appropriate, the principal may provide intervention and/or relevant support services (i.e. refer to counseling, establish training programs to reduce criminal gang activity and enhance school climate, enlist parent cooperation and involvement or take other appropriate action). The principal shall inform the parents of all students involved in alleged incidents as provided below, and, as appropriate, may discuss the availability of counseling and other intervention services.

The principal shall provide the parents of the students who are parties to any investigation with information about the investigation, in accordance with Federal and State laws and regulations. This information includes the nature of the investigation, whether the Corporation found evidence of criminal gang activity, and whether consequences were imposed or services provided to address the activity. This information is to be provided immediately upon completion of the investigation and issuance of findings by the principal or designee.

Backpacks are not allowed to be carried during the regular school day; only to and from school. However, small shoulder string bags/gym bags (no larger than 14X17) may be used all day to carry needed materials. *(As part of our commitment to school safety, we continually review our policies and procedures to ensure that we are providing a safe and secure learning environment. To that end, we have revised our policy regarding book bags. Please understand that it is not our goal to inconvenience our students, but to provide a safer school for everyone. While we would all love to have fewer restrictions, our job is to create the safest environment possible for students and staff.)* Students are limited to carrying one string bag at a time.

HOMEWORK RECOMMENDATIONS

Homework should be assigned to facilitate a better understanding of the subject matter. Homework also provides an opportunity for students who perform poorly on tests and/or have poor test taking skills to gain additional understanding of the material. By assigning work to be done outside of the class, the student must accept individual responsibility for its completion, therefore preparing the student for the types of responsibilities, which will be encountered in later life.

Parent Involvement: Parents are encouraged to discuss and/or help students, short of actually doing the work for them. Involvement of parents, in supervision of and aiding in assignments, can bring about an understanding by the parents of classroom activities and subject matter.

Evaluation of homework assignments: **Homework should be used as optional “tool” and not required in an evaluation of the progress of the student. It is not felt that homework assignments should necessarily be given a letter grade,** but in each case, whether graded or not, they must be stressed as an integral part of the learning process. It is recommended that assignments, which are evaluated by the teacher, be returned as soon as possible.

Parent, student and teacher responsibilities: Parents cannot be held responsible for their student’s assignments, but should provide a positive atmosphere for learning. This promotes understanding, stresses importance, and is conducive to completing assignments.

Teachers are responsible for assigning meaningful work, with some expected carry-over value. The teacher is also responsible for attempting to make sure the student has a clear understanding of the assignments. The final responsibility for learning ultimately rests with the student. He or she must provide the energy and the attitude, which will carry through experiences as a student and citizen. Teachers, with the aid of parents, must provide the motivation and the challenge to stimulate students. These ingredients are vital to the continued success of the educational process and in developing youth into contributing, responsible citizens.

Annual Reporting of Investigations to the State

Each school principal or designee shall record the number of investigations of criminal gang activity disposed of internally and the numbers of cases referred to local law enforcement (disaggregated by race, ethnicity, age, and gender) and report this information to the Superintendent before May 15 each year.

The Superintendent shall submit a written report to the Indianan Department of Education, on forms developed by the Department, before June 2 of each year outlining the activities undertaken as part of the Corporation’s compliance with I.C. 20-26-18. This report shall include the number of investigation of criminal gang activity disposed of internally and the number of cases referred to local law enforcement for the entire Corporation in the past year, disaggregated by race, ethnicity, age, and gender.

Information about the Types of Services, Including Family Support Services, for a Student Suspected of Participating in Criminal Gang Activity

The Superintendent shall provide information about the supports and services available for students who are “at risk” for and/or suspected of participating in criminal gang activity and their families. This shall include gang awareness education for students, parents, faculty/personnel, law enforcement, and community stakeholders that, at a minimum, show potential for effectiveness based on research.

The Superintendent shall seek Federal funding, if available, to implement criminal gang prevention and intervention services and programs including the following:

- a. Training for staff and teachers on criminal gang prevention and intervention resources

- b. Coordination of resources and funding opportunities to support gang prevention/intervention activities

Publication of Policy

The Superintendent shall ensure that this policy is posted on the Corporation's Internet website and annually disseminate this policy to all parents who have children enrolled in the school corporation. This may be done through distribution of student handbooks. The Superintendent shall ensure that notice of the Corporation's policy appears in the student handbooks and all other Corporation publications that set forth the comprehensive rules, procedures, and standards for schools within the corporation.

BULLYING

Caston School Corporation is committed to a safe and civil educational environment free from bullying for all students, employees, volunteers, and patrons. Bullying is a violation of the state law and school policy and can be suspend able or expellable offense. In instances where bullying occurs, an administrator will use his/her discretion and judgment to determine proper action.

1. This rule applies when a student is:

 - b. Off school grounds at a school activity, function, or event;

Drug enforcement policy and regulations will be covered and a drug contract must be signed by parent and student prior to participation in athletic, extra curricular or driving activities.
- B. The random drug-testing program adds a new dimension to the athletic, extra-curricular and student driver codes and procedures already established by the school to guide student conduct. This program is intended to be a helpful part of the overall physical and mental education and conditioning programs of the Caston School Corporation.

C. Program Implementation

1. In addition to student athletes, students who choose to participate in extra-curricular programs, and student drivers, the school will test any student who volunteers to participate in the program, as well as students under the age of eighteen (18) whose parents wish to have them included in the program.
2. Implementation of this program shall not affect the policies, practices, or rights of the Caston School Corporation in dealing with drug, alcohol, or tobacco possession or use where reasonable and probable cause is obtained by means other than the random sampling provided herein.
3. All prospective participants in athletics, extra-curricular, as well as student drivers and voluntary participants in this program, will meet with the administration, receive a consent form—which shall be dated and signed by the student and by a custodial parent or guardian—before such participants shall be allowed to practice, participate in any activity or drive a motor vehicle to school. The consent shall be to provide at any time requested, a urine sample to be tested for drugs, tobacco, and alcohol.
4. The selection of students to be tested will be conducted by a designated agency that can provide a random draw. Selections may occur at any time. At the beginning of the school year, or upon first entry into the program, each student participant will be assigned a number. One cross-referenced list of names and numbers will be maintained by the administration and shall be secured in the school safe until the designated day of testing. The selection of students to be tested shall be done by number by an outside agency preceding the test so that selected students may be called to the office by confidential pass. Up to ten percent (10%) of the number of eligible participants may be selected for each test period.
5. All students will remain under supervision until they have produced an adequate urine sample. If unable to or refuses to provide a specimen, the student may be given up to twelve (12) ounces of water. If still unable to or refuses to produce a specimen within one hour, the student will be taken to the principal's office and told he/she is no longer eligible for any extra-curricular or co-curricular activity, or be allowed to drive to or from school. The failure or refusal to provide a sample will be treated as a 'positive' test result. In addition, the parents/guardian will be telephoned and informed the student is unable to produce a sample for testing procedure and that he/she may be tested at a later date to be reinstated for eligibility as specified in the extra-curricular guidelines.
6. The collection of the sample will be done in a non-offensive manner, which ensures the integrity of the sample. The school official who supervises the sample collection will not physically observe the giving of the sample, which will take place in a secured enclosure. Recording of appropriate information to ensure a proper chain of custody record will begin at the time the sample is collected, including verification signatures by both the student and the supervising official. The samples will then be turned over to the testing laboratory, and each sample will be tested for alcohol, and unlawful drugs, which are listed in the controlled substance provisions under Indiana State law, and steroids. Testing shall be done by a competent and accredited laboratory, which will be selected by the Caston School Corporation.

The laboratory shall report the results of the test to the superintendent and Jr. Sr. High School principal. The principal shall be responsible for contacting the student and his/her parents/guardians regarding the test results. If the test is positive, the principal will make contact with the testing lab to determine if there are any medical explanations for the substance to be in the student's sample. If the participant is taking any over-the-counter or prescription medication which may contribute to a positive test result, it would be in the student's best interest for that student and the student's parent or guardian to inform the school principal of this fact at the time of taking of the urine sample. If the principal verifies that there is no medical reason for the positive result, s/he will contact the student and the student's parent or guardian.

The principal shall keep all test results. The parents or guardians of a student who test negative will be notified by mail within five (5) days of the receipt of the information. The administration shall maintain a record of occurrences for the duration of a student's high school career. These records shall be destroyed at the beginning of the school year immediately following a student's graduation from high school. These records shall not become a part of the student's permanent record, nor shall they be transferred if a student leaves the Corporation to attend another school. However, it is required that receiving schools be notified if a student has been declared ineligible for participation, or driving/parking to/on school property. If a student is, or would have been declared ineligible for participation at Caston School Corporation, this information will be sent to the receiving school.

D. Violations

1. First Violation

If the violation occurs in the last third of the “Season”, the student will be suspended from all remaining contests and practices and will not receive any awards as a result of his/her participation in the sport/extra-curricular activity. (The suspension when warranted will continue into the student’s next sport “Season” in which s/he had previously participated. If the violation occurs out of “Season”, the student will be suspended for twenty (20) days or four (4) contests (whichever is longer) of the events and practices of the next “Season” in which s/he participates and has participated in previously. A student must serve the suspension to be reinstated in athletic/extra-curricular “Season.” In the case of a driver, s/he will not be allowed to drive to school for sixty (60) calendar days.

This committee will be made up of: Jr. Sr. High School Principal, Jr. Sr. High School Counselor, Athletic Director, One Head Coach, Band or Choir Director, One Other Extra-Curricular Sponsor, One Driver Education Teacher, President of High School Student Council, One Parent. The Principal will be the Chair of the Drug Advisory Committee. The Superintendent will participate as an ex-officio member and determine the membership of the committee on an annual basis.

F. Urine Collection Procedures: Procedures must provide for the collection site to be secure. Authorized collection site personnel upon receipt of specimens must properly execute Chain of custody forms. The handling and transportation of urine specimens from one (1) authorized individual or place to another must always be accomplished through the use of chain of custody procedures. No unauthorized personnel shall be permitted in any part of the collection site where urine specimens are collected or stored.

COLLECTION PROCEDURES:

Procedures for providing urine specimens must allow individual privacy unless the agency has reason to believe that a particular individual may alter or substitute the specimen to be provided. Agencies must take precautions to ensure that a urine specimen has not been adulterated or diluted during the collection procedure and that all information on the urine bottle and in the logbook can be identified as belonging to a given individual. The honor roll will be published at the close of each grading period. High honors will be given to students with nothing less than an A- (The "A" honor roll). Honors will be given to those with nothing less than a B- (The "B" honor roll). Report cards are issued to students following the end of each Nine-week grading period.

SEMESTER GRADES, G.P.A., CLASS RANK, VALEDICTORIAN & SALUTATORIAN

1. Semester grades are the only grades posted to permanent records and used to determine student's class rank and grade point average (G.P.A.).
2. Adding the point values of the semester grades from the grading scale and dividing by the number of credits attempted determine G.P.A.
3. The G.P.A.s will be arranged in numerical order making a class rank list. Each student can then determine his/her class rank from this list, which is kept by the counselor and the guidance secretary.
4. The student who has the highest G.P.A. at the end of 8 semesters will be class valedictorian. The student who ranks second at the end of 8 semesters will be class salutatorian. In case of ties, plural awards for valedictorian and salutatorian will be given.

WITHDRAWAL FROM SCHOOL

Indiana law requires that students attend school until 18 years of age. The Board directs that whenever a student under the age of 18 wishes to withdraw from school, an exit interview will be conducted with the student, his/her parents or guardian, and the principal. The student may not withdraw from school unless the student, his/her parents, and the principal agree to the withdrawal, and the parent or guardian, and the principal provide written consent for the student to withdraw from school.

HIGH SCHOOL PROGRESS REPORTS

At the midpoint of each nine weeks, parents of high school students will receive a progress report. This report will indicate an approximate grade for the course. The teacher may also make additional comments concerning the student's behavior and academic performance report.

JUNIOR HIGH PROGRESS REPORTS

At the midpoint of each nine weeks, parents of junior high school students will receive a progress report. This report will indicate an approximate grade for the course. The teacher may also make additional comments concerning the student's behavior and academic performance on this report.

GRADES OF INCOMPLETE WORK

With cases in which students have not completed work during a grading period, a grade of incomplete (I) will be given. If this work is not completed and the grade changed within two weeks after the distribution of report cards, the grade automatically becomes an "F." The student bears the responsibility of arranging the completion of this work. No Incomplete will be assigned to the final grading period for the school year.

NINE WEEKS / SEMESTER COURSE GRADES

There are two nine-week grading periods each semester. The individual classroom teacher determines the course grade for each nine-week grading period. The weight of the nine-week grade will be 45%. The weight of the final examination will be weighted 10%. Questions concerning the course grade should be directed at the individual classroom teacher. The teacher has the final determination over a student's grade in a course. Courses where there are no final exams given will have their nine-weeks grades weighted 50% / 50%.

STUDENT PROMOTION/RETENTION

Any Caston Junior High School student who has received a failing grade (F) for a semester in one or more of the basic skill subject areas with the recommendation of the basic subject area teachers and the approval of the principal may be remediated/retained. Parents shall be given the opportunity to discuss their child's situation but the final action rest with the basic subject areas and the principal.

SUBJECT DROP/ADD POLICY

The Master Schedule has been completed according to the selection each student has made; staffing and room assignments have been completed according to needs dictated by students' choices; and individual schedules have been printed. With the above resources having been committed, further changes in individual student schedules will be permitted only to correct schedule errors or to meet requirements for entrance into post-school training and/or teaching programs, and then only with the approval of the guidance department, teachers involved, and the principal.

1. Students should be enrolled in seven (8) periods at the beginning of each semester.
2. Before any class can be dropped, another class must be available in order to maintain full load status.
3. If a student drops a subject during the two weeks of a semester, there will be no penalty and no record made on the permanent record. Permission to drop a subject shall be secured from the guidance director, teachers involved, and principal. Written permission from the parent must also be provided.
4. No class may be dropped after the first two days of the semester unless approved by the guidance director, teachers involved, principal, and written permission from the parent.

No class may be dropped after the first TWO DAYS of the semester unless approved by the guidance director, teachers involved, principal, and parent. Either a grade or "W" for withdrawal will appear on the student's record. The decision for the grade or a W is up to the guidance director, teachers involved, and the principal.

RELEASE OF INFORMATION

Federal law and regulation govern educational records. The requirement of these laws and regulations are contained in school board policy. Generally, this policy provides for the following:

1. Records are confidential and may be disclosed only as provided in the policy.
2. The policy concerns both elementary and secondary student education records.
3. Parents have a right to examine their child's records at reasonable times if the child is less than 18 years of age and not attending a post-secondary institution or if the child is a dependent student as defined by Section 152 of the Internal Revenue Code.
4. Students have a right to examine their records at reasonable times.
5. Before education records are disclosed to third-parties, the school requires a signed and dated written consent of (a) a parent of a student who is less than 18 years of age and not attending a post-secondary educational institution, or (b) a student who is at least 18 years of age or attending a post-secondary institution.
6. Certain persons may examine education records without a parent or student's consent as provided in the above paragraph. These include school officials (who have legitimate educational interest) and officials of another school, school system, or institution of post-secondary education where the student seeks or intends to enroll. This school corporation forwards education records to another school corporation, school system, or institution of post-secondary education where the student seeks or intends to enroll without prior notification to the parent or student.
7. Directory information will be released to media organizations (including photos, radio, television, and newspapers), colleges, civic or school related organizations, and state or local government agencies without the consent of parent

or student as provided in paragraph 5 above. A parent of a student less than 18 years of age may object to disclosure of any of the categories of directory information by requesting in writing that directory information be withheld. This letter must be turned in to the principal's office no later than 14 calendar days from the beginning of the school year.

STUDENT SERVICES

BOOKSTORE

A variety of school supplies are available in the bookstore. This includes pens, paper, notebooks, erasers, etc. The bookstore also acts as a center for the collection of various charges and fees. The bookstore will not be able to cash checks. You may write a check for the amount of your purchase only.

CAFETERIA

The Child Nutrition Program of Caston School Corporation operates as a separate and non-profit component of the school and supports the total education of each child through the provision of nutritional meals. The program goal is to serve nutritious meals and food to all clients at a minimum cost. In accordance with the National School Lunch Program (NSLP), all students that attend Caston School Corporation are provided the opportunity to purchase breakfast and lunch at the school cafeteria.

A. PAYMENT OF MEALS

In order to maintain the lowest meal prices possible, families who either pay full price or who qualify for reduced prices for student meals are expected to provide payment on a daily basis. Parents/guardians can deposit money into their child's account on a daily, weekly, or monthly basis. Having a readily available prepay account eliminates the need to send money with the student each day. Cash, Money Order, Personal or Cashiers checks are acceptable forms of payment. Credit Card payments can ONLY be accepted through our Harmony Program, located on our school website. Students who qualify for free meals will be served in accordance with the program's federal and state regulations.

Payment for meals is the responsibility of the parent/guardian of the student. It is also the parents'/guardians responsibility to check their child's account balance on a regular basis.

All meal payments need to be turned into The Office or The Bookstore by 8:35 am to be credited to the student's account that day. Any payments made after 8:35 am will be credited the following business day. Payments should be placed in an envelope with the student's name and lunch identification number, to ensure proper deposit.

B. FREE AND REDUCED MEAL PRICES

Parents/guardians who cannot afford to pay for meals should apply for benefits under the free or reduced price meal program. Applications for free or reduced price meals will be processed in a timely manner once they are received in their entirety. Charges for meals will accumulate only in accordance with the guidelines of this program. Caston School Corporation is not responsible for meal charges that have accumulated due to incomplete applications or failure to submit an application.

C. CHARGING

It has been determined that the policy of charges in the cafeteria will be handled as follows (Charge being customer receiving meal on the assumption the debt will be paid back on the following day).

ELEMENTARY SCHOOL The head cashier in our building will send a reminder notice home if a student is provided lunch without payment. Students will be permitted to charge up to three lunches. If payment is not received for the charged lunches prior to the next lunchtime, students will be provided an alternative brown bag lunch consisting of an offering of the required food groups of grain, vegetable, protein, fruit and milk in place of the hot lunch offering of the day. The cost of

the alternative meal will be added to the outstanding account balance. Up to three alternative meals will be offered to the student without prior payment. If full payment is not made, or alternative arrangements made, students will not be permitted to charge additional lunches until the outstanding balance is paid. If a student has exceeded six days of unpaid meals, the student will be assisted in contacting a parent or guardian from school prior to lunchtime for a bag lunch from home or payment of the unpaid balance.

JUNIOR HIGH will be permitted to charge one meal. If payment is not received for the charged meal prior to the next lunchtime, the student will be offered an alternative meal consisting of the required food groups in place of the main meal. The cost of the alternative meal will be added to the outstanding balance. Up to three alternative meals will be permitted to be charged. If full payment is not made or alternative arrangements made, students will not be permitted to charge additional lunches until the outstanding balance is paid. If a student has exceeds four days of unpaid meals, the student will be assisted in contacting a parent, guardian or other adult from school prior to lunchtime for a bag lunch from home or payment of the unpaid balance. If the student's account has a negative balance the parent or guardian will be contacted by telephone, e-mail or letter regarding the outstanding balance.

HIGH SCHOOL is not permitted to charge meals nor is charging permitted for a la carte items.

ADULTS are not allowed to charge (receive on credit) food or meals as part of the State Education Department regulations.

***If a student owes the Cafeteria money, but has money to purchase a meal for the day, one can be purchased with the money in hand.**

****Snacks and ala carte items are not allowable items to charge**

*****Snacks and ala carte items will NOT be available for purchase to students who have a negative account balance.**

GUIDANCE SERVICES

The guidance services are intended to assist students in college and vocational planning, preparation of their academic programs, and assisting in solving some personal and social problems. To see the counselor, you should secure a pass in advance from the guidance counselor. Upon completion of your conference, the guidance counselor will give you a return pass.

HEALTH AND INJURIES

If a student is ill or injured, he/she should report to the nurse's office with the approval of his/her teacher (if it is not an emergency). Parent notification will be made before a student may leave school due to illness or injury. The school nurse should be informed any time a serious illness or accident occurs or a health check is needed. The student is to notify his teacher if he spends a period in the nurse's office and should return with a signed pass from the nurse the next day. A class period spent in the nurse's office will count one day's absence from this particular class.

LOST AND FOUND

The lost and found department is in the front office. Anything found should be turned in at the office where the rightful owner may claim it.

MEDICATION

All medication brought to school by students must be taken to the nurse's office upon arrival to school. Medication taken by the student must be taken in the nurse's office under the supervision of the nurse. School personnel will not dispense medication to students unless prior parent permission is filed with the nurse. Students must notify the office if they are taking prescription medication and may leave it with the nurse.

TELEPHONE

Telephone calls should not be made during school hours except in an emergency. No students will be dismissed from class to answer telephone calls or to make calls, except in an emergency. The office staff will determine an emergency. Students will not be let out of class to make a telephone call. Since most calls from the school are long distance, students are asked to make collect calls or calling card calls from the office. **Students should not use cell phones during the normal school day to call home or text home without permission.**

TEXTBOOK RENTAL AND FEES

The students will be provided with textbooks and workbooks on a rental basis. The following rules have been established to govern this system:

1. It is to be the decision of the bookstore manager as to acceptability of the condition of all and any textbooks.
2. The books are to contain a place for the student's name. Any additional marks will cause a penalty to be charged for the destruction of school property. The teacher in charge and/or the bookstore manager will determine the amount.
3. The student is responsible for these books. He/she will be required to pay for any book lost, damaged, or destroyed.
4. In case a family moves in or out of the community, the charge for rental will be determined by multiplying the fractional part of the year the books were or are to be used by the annual rate. The fraction will always be rounded off to the next larger fraction of $\frac{1}{3}$, $\frac{1}{2}$, $\frac{2}{3}$, or the full amount. The amount due will never be less than the cost of the workbooks used.
5. The annual rental fee for grades 6, 7 and 8 will be a flat fee. The annual fees for high school students will depend upon the classes in which the student is enrolled.
6. Additional fees for classes such as FACS, Art, Agriculture, Labs, PLTW, etc., will pay for the vast majority of materials and supplies needed in that class during the year.

TRANSPORTATION POLICY

Our philosophy: We believe all students can behave appropriately and safely while riding on a school bus. We will tolerate no student stopping drivers from doing their job or preventing other students from having safe transportation.

WORK PERMITS/CHILD LABOR LAWS

Any student gainfully employed who is 14 to 17 years of age and employed in Indiana needs to obtain a work permit. Schools may refuse to issue work permits due to poor grades and/or attendance and, once issued, may revoke a permit for the same reasons.

PESTICIDE NOTIFICATION

Caston School Corporation applies pesticides as necessary to buildings and grounds, adhering to all stringent state regulations with properly licensed applicators. By law, the school corporation must invite parents, guardians and staff to be added to an advance notification registry for specific required instances of application to student-occupied buildings and areas made within 48 hours of a scheduled school day. If you wish to be added to this notification list, you are required to contact Caston School Corporation by September 15th of each school year, or in the case of a student enrolling after September 15th within 10 days of enrollment. Applications will be made without advance notification if there is an immediate health threat to students or staff.

TERMS AND CONDITIONS FOR IN-SCHOOL USE OF INTERNET RESOURCES

© Caston School Corporation

Version 1.1, 5/98

Please read the following carefully before signing the attached agreement.

The Caston School Corporation now has the ability to provide the World Wide Web Internet access to your child at his/her school. This access offers vast, diverse, and unique resources and is provided to students and school personnel to promote educational excellence in the Caston School Corporation. The purpose of this document is to inform parents, guardians and students of the availability of the Internet resources as well as the rules governing its use and to obtain express parental or guardian permission for an individual student to use the Internet while at school.

The Internet is an electronic highway connecting thousands of computers all over the world, which can give students and teachers access to a variety of rich, educational resources. The World Wide Web, a portion of the Internet that your student can use, includes some information specifically designed for children, up-to-the-minute scientific information, Supreme Court documents, and other information that is traditionally difficult to obtain in the school environment. To access the World Wide Web at school, students will be using a World Wide Web browser (a piece of software) called Netscape Navigator. This allows students to navigate through “web” information by pointing and clicking the mouse. Information is presented richly in text, pictures, sound, and some video. Students can send electronic mail through Netscape, but the access described in this document will not provide students with their own Internet e-mail address, the ability to create World Wide Web pages, or the ability to access the Internet from home.

The educational value of appropriate information on the Internet is substantial. The Internet is composed of information provided by institutions and people all over the world and thus includes material that is not of educational value in the context of the school setting. There is information that may be judged as inaccurate, abusive, profane, sexually oriented, or illegal. CASTON SCHOOL CORPORATION does not condone or permit the use of this material. It is a joint responsibility of school personnel and the parent or guardian of each student to educate the student about his or her responsibility when using the Internet. One of our school goals is to support students in responsible use of this vast reservoir of information. In addition to student education, Internet access is available to students only on computers that are in highly traveled areas of the school building such as classrooms, computer laboratories and the media center/library. However, parents and guardians must be aware that while at school, direct supervision by school personnel of each student using the computers is not always possible. Thus, students are expected to use the resources in a manner consistent with this contract and will be held responsible for their use. Additionally, parents should discuss with their children their own expectations for their child’s Internet use

PASSWORDS

To insure maximum protection of students’ files and for network security, it is imperative that students do not share their passwords with other students. If sharing of passwords is found then this will be considered a security breach, and Caston School Corporation will not be responsible for the student’s data and/or files that may become lost or stolen. Also, students found sharing passwords will automatically have network privileges revoked and disciplinary action will commence immediately. If you suspect that someone else has accessed your account illegally, it is your responsibility to report this behavior to either your teacher, principal, or the computer network supervisor immediately. Passwords will also be required to be changed periodically for security purposes. Again, **DO NOT GIVE OUT YOUR PASSWORD!** They are used for your own protection

PROPER & ACCEPTABLE USE

The use of the Internet, including the world wide web in the Caston School Corporation must be in support of education and academic research and consistent with the educational objectives of the Caston School Corporation.

Internet activities that are permitted and encouraged:

- Investigation of topics being studied in school;
- Investigation of opportunities outside of school related to community service,
- Employment or further education.

Internet activities that are not permitted:

- Searching, viewing or retrieving materials that are not related to school work, community service, employment or further education (thus, searching or viewing sexually explicit, profane, violence promoting or illegal materials is not permitted);
- Copying, saving or redistributing copyrighted material (users should assume that all material is copyrighted unless explicitly noted);

Subscription to any services or ordering of any goods or services;

Sharing of the student’s home address, phone number or other information;

Playing games or using other interactive sites such as chats, MUDs and MOOs unless specifically assigned by a teacher;

Any activity that violates a school rule or a local, state, or federal law.

If a student has any questions about whether a specific activity is permitted, he or she should ask a teacher or administrator. If a student accidentally accesses inappropriate material, she or he should back out of that information at once.

RELIABILITY

Caston School Corporation makes no warranties of any kind, whether expressed or implied, for the service it is providing. CASTON SCHOOL CORPORATION will not be responsible for any damages you suffer. This includes non-deliveries, misdeliveries, or service interruptions caused by its own negligence or your errors or omissions. Use of any information obtained via the Internet is at the user's own risk. CASTON SCHOOL CORPORATION specifically denies any responsibility for the accuracy or quality of information obtained through the Internet.

EXCEPTION OF TERMS AND CONDITIONS

All terms and conditions as stated in this document are applicable to the Caston School Corporation. These terms and conditions reflect the entire agreement of the parties and supersede all prior oral or written agreements and understandings of the parties for in-school Internet access. These terms and conditions shall be governed and interpreted in accordance with the laws of the State of Indiana, United States of America.

MISUSE

Violation of the terms of this agreement may result in suspension or revocation of a student's access to the Internet. Any action taken by a student, which is in violation of a school rule, will be subject to the usual disciplinary actions. You are expected to follow specified guidelines listed in this document and take any additional common sense precautions to protect your assigned iPad.

Bring the iPad with a charged battery to school every school day. Charge your device fully each night (or perhaps every other night once you determine battery life).

- You will be responsible for keeping your device with you or in a secure location at all times. This could be locked in your locker or other secure place others do not have access to. Do not leave in any car, unless it is locked in the trunk, secured in the CSC case and making certain there is no extreme temperature (hot or cold).
- Avoid use in situations that are conducive to loss or damage. For example, never leave device in school vans, in the gyms, in a locker room, on playing fields or in other areas where it could be damaged or stolen.
- Loss or damage that occurs when anyone else is using your assigned iPad will be your full responsibility.
- Adhere to CSC's iPad procedures at all times and in all locations. When in doubt about acceptable use, please ask school personnel.
- Back up your data. One way to store and back up data is Dropbox.
- Read and follow general maintenance alerts from school technology personnel.

General Care

- Do not attempt to remove or change the physical structure of the iPad, including the screen, screen cover/casing. Doing so will void the warranty, and you will be responsible for repair or replacement cost.
- Do not remove or interfere with the serial number or any identification placed on the device.
- Do not do anything to the device that will permanently alter it in any way.
- Keep the equipment clean.
- The case is also property of CSC and must remain free of any additional markings, stickers, etc.

Carrying the iPad

- Always store and carry the device in the provided CSC/Apple approved case.

Screen Care

- The iPad screen can be easily damaged if proper care is not taken. Screens are particularly sensitive to damage from excessive pressure. The Apple approved case will be of assistance in protecting the screen therefore the device should always remain in the CSC case.
- Do not touch the tablet screen with anything other than an approved device. If you purchase a stylus, make certain it is designed for the iPad.
- Clean the screen with a soft, dry, anti-static cloth. An eyeglass cleaner cloth works very well.

- Never leave any object on the screen. Pens or pencils left on the screen can damage the screen when the case cover is closed and will void the warranty.

Battery Life and Charging

- Arrive to school each day with a fully charged battery. Establish a routine at home whereby each evening you leave your iPad charging overnight.
- Avoid using the charger in any situation where you or anyone else is likely to trip over the cord.
- Lowering the screen brightness will conserve battery power.
- Don't let the battery drain below 5%. Save your work and turn off the device if you are unable to connect to the charger.
- Close the case cover when the device is not in use to save battery life and protect the screen.

How to Handle Problems

- Promptly report any problems to the administrator and/or technology department. A ticket system may be used in the future. Instructions for this procedure will be provided at that time.
- Don't attempt to fix hardware issues yourself. When in doubt, ask for help!
- Do not go outside of CSC for repairs.
